THE MINSKY™ PLATFORM SUITE — PROPRIETARY AI ECOSYSTEM

Minsky™ AiFactory
AI foundational engine — agentic inference, HITL governance, SBOM/OWASP security, multi-model routing. Powers every Minsky™ product.

Minsky™ CRM
AI-native CRM — outperforms Salesforce at a fraction of the cost.

Minsky™ AtlasIQ
Business intelligence — real-time enterprise research with agentic insight generation.

Minsky™ CodeGen
AI developer suite — full-stack AI-generated code, from idea to deployment.

Minsky™ CodeAudit
AI developer suite — coding-standard, defect, security & traceability review; legacy migration.

Minsky™ CodeTest
AI developer suite — full-stack AI test-case creation and execution.

Minsky™ Gateway
Sovereign AI routing — panel-deliberated, deterministic multi-provider LLM routing, zero data egress.

Minsky™ Edge
FPGA/embedded model governance — hardware-only approval gates, signed delivery bundles.

Minsky™ TaskManager
Sovereign AI-native work management — 22 modules, 13 built-in AI agents; agile, portfolio & ITSM in one licence.

Minsky™ Assure
AI-accelerated certification — CodeTest + CodeAudit bundle; software testing & audit readiness for regulated markets.

Minsky™ DrugDiscovery
Pharma & life sciences — AI-accelerated molecule screening, clinical trial optimization.

Minsky™ DataCleanse
Data quality AI — automated normalization, deduplication, enrichment at pipeline scale.

MINSKY™ CRM vs SALESFORCE — WHY ENTERPRISES ARE SWITCHING

Enterprise-grade AI CRM at significantly lower TCO. No per-seat inflation. No opaque AI add-ons.

Category	Minsky™ CRM	Salesforce.com
Base License Cost	Flexible tiered; lower entry point	$3K–$6K per user/year
Total Cost of Ownership	Significantly lower; no seat tax	High; escalates with add-ons
Sovereign / On-Prem	AWS, Azure, on-premises, sovereign	Cloud-only; Salesforce-hosted
Data Sovereignty	Customer controls data residency	Salesforce-controlled
Conversational AI	Ask Minsky™ — real-time NL queries	Einstein Copilot — paid add-on
AI Proposals / RFPs	Built-in RFP builder included	Not native; AppExchange required

HOW MINSKY™ PLATFORMS STACK UP AGAINST THE COMPETITION

Unlike point solutions (Cursor, Claude Code) or legacy CRMs (Salesforce), Minsky™ AiFactory is an **integrated proprietary platform** with sovereign deployment capability, 12 platforms, and embedded OWASP/SBOM/SAMA compliance.

Feature / Capability	Minsky™ AiFactory	Claude Code	Cursor
Enterprise AI Factory	✓ Full Stack	Limited	Code only
On-Prem / Sovereign	✓ Yes	✗ Cloud only	✗ Cloud only

MINSKY™ ASSURE — HOW IT COMPARES

AI-accelerated software testing, audit and certification — bundling Minsky™ CodeTest and Minsky™ CodeAudit, launching with KSA as lead market.

Dimension	Incumbent In-Kingdom Certification	Minsky™ Assure
Cost per platform	~US$7M per testing project (reported)	~US$1.2M accelerated engagement
Turnaround	Typically 2–3 years	8–12 weeks for a first full assessment
Method	Manual, sequential test & review phases	AI-generated tests + automated audit, in parallel
Data sovereignty	Code shared with service provider	Runs on in-Kingdom sovereign cloud or premises

MINSKY™ TASKMANAGER — HOW IT COMPARES

Sovereign, AI-native work management — 22 modules and 13 built-in AI agents unifying agile, portfolio and ITSM in one licence, with Jira-compatible migration.

Capability	Minsky™ TaskManager	Jira + JSM	ServiceNow	Asana
Scrum & Kanban delivery	✓	✓	Partial	Partial

★ THE AI LABS, INC. ADVANTAGE ★

1. Sovereign-First Architecture
On-prem, private cloud, or sovereign deployment — critical for KSA/GCC and regulated industries.

2. True Multi-Vertical AI Suite
12 proprietary platforms, one unified engine — consolidate multiple vendor contracts into one deployment.

3. Built-In Compliance by Design
OWASP, SBOM, CVE scoring, and SAMA alignment are core architecture — not add-ons.

4. NexGen AI Offshore Delivery
400+ engineers in Hyderabad, full IP ownership — no third-party integrators, no dependency risk.

5. Validated Enterprise Partnerships
SDAIA, Apollo Hospitals, BrainChip, and TSAB provide real-world validation and referenceable deployments.

6. Hardware-to-Cloud Governance
From Minsky™ Gateway's LLM routing to Minsky™ Edge's approval gates — governance from API call to silicon.

Enterprise AI. Sovereign. Scalable. Secure.
