

About Us:

Ai Labs Inc. (www.ailabsinc.com) was founded in 2017 with a mission to offer Artificial Intelligence solutions using our Proprietary **Minsky™** Platform. Ailabs is an Arizona based C-Corp with Engineering centers based in India. We provide outcome based turnkey and customized solutions tailored to end customer needs. We help our clients achieve organizational objectives to maximize their Return on Investment (ROI). We are a dedicated team of innovative Data Scientists, Software Engineers, Domain Experts, Analysts who are committed to simplifying complex use cases to automate and monetize your existing data !

About Minsky™:

AiLabs' Minsky is as an Enterprise grade AI engine that essentially is software system responsible for powering the functionality of an AI application.

It involves a combination of algorithms, models, and data processing capabilities that enable the AI system to perform specific tasks or provide intelligent services.

Our Professional Services:

- Ai Consulting, Business Analysis and Project Scope Development
- Custom Artificial Intelligence applications
- Custom LLMs / Gen-Ai Solution development
- EdgeAi Application Development
- AI/ML/DL solutions using our Minsky™ AI Engine or on the MS Azure, AWS or GCP
- Ai Training / Workshops
- Big data predictive analytics/decision-support systems for massive data sets
- Custom Full Stack Software Development, Cloud Migration
- ERP Solutions (Support & Maintenance)

Projects Completed:

We completed the following projects using our Minsky engine and real-time datasets.

- ◆ Gen Ai / LLMs (FinTech, (Compliance, Fraud Detection)
- ◆ Edge Ai projects (Ai on Chip)
- ◆ FinTech (Insurance Fraud, Mortgage Loans, Worker's Comp)
- ◆ Healthcare (Claims, Disease Mgt, Drug Efficacy, Hospital Admissions)
- ◆ Manufacturing / Quality
- ◆ Energy Demand / Gen Forecasting
- ◆ Predictive Maintenance (Equipment, Automotive)
- ◆ Customer Churn/Retention
- ◆ Climate Change / Green-house gas emissions
- ◆ Employee Retention
- ◆ Crop Disease Prediction
- ◆ Supply Chain Forecast
- ◆ Integrated Minsky with **ChatGPT™**

Minsky for Real - time Decisions

Benefits Of Minsky™

- ◆ User-Friendly, cloud-based Ai platform
- ◆ Provides you a list of % dependency features that can be used to optimize your business
- ◆ Ability to fine-tune or optimize the models by trying different algorithms/prediction attributes
- ◆ Easy integration with legacy systems and other third-party solutions such as Data warehouses, data-visualization, etc
- ◆ It seamlessly works across a Cloud, On-Premise or hybrid environment
- ◆ It can be used across various domains
- ◆ Minsky™ engine can be used to develop custom solutions for "Ai at the edge" and also extended to "Ai on Chip" solutions.
- ◆ Minsky™ can also be embedded in data acquisition/

Benefits to Client

Enhanced decision-making: We enable data-driven decision-making through advanced Software / AI Technologies

Increased operational efficiency: We optimize processes through automation and AI technologies, leading to cost savings and improved productivity.

Quick ROI through Customized solutions: We develop tailored AI solutions to address unique business challenges, resulting in profitable outcomes.
